Bruno and his invention

by [MiaQc](#)

Summary

The Girl From Tomorrow microfic. Bruno was able to create a time machine, the Time Capsule.

- A translation of [Bruno et son invention](#) by [MiaQc](#)

Many people in the year 3000 know that Bruno is a brilliant man, but it was a surprise to everyone that he was able to create a time machine, the Time Capsule. Thanks to it, they will finally discover the Great Disaster's origin, an apocalyptic event that almost eliminated all traces of life on Earth. This was without counting on Silverthorn's unexpected arrival, Alana's kidnapping, and the young girl adventures in the year 1990. Despite everything, the cause of the Great Disaster will be discovered.
